Statement of Reasons

Traffic Regulation Orders - Proposed Experimental Order
– Manners Way Southend-on-Sea

As a result of the growth in passengers at Southend Airport and following requests from your Ward Councillors for a review of the parking in Manners Way, an assessment of the parking situation has been carried out.

Before any permanent Traffic Regulation Order is introduced it is sometimes the case that an Experimental Order be put in place to allow for the changes to be monitored and also to allow residents to make comments on them. This is what is planned for the two sections of Manners Way described in the Order and shown on the plan.
