Allillal Calcasses (dead allillals)	Non-recyclable	n/a	n/a	private and prease also contact us.
				Use up where possible in accordance with manufacturer's instructions. If it cannot be used please deposit in Hazardous waste area at Stock Road HWRC.
Antifreeze	Non-recyclable	HWRC	Hazardous	Please do not dispose of in black sacks as liquids cannot be collected
				DO NOT TAKE ASBESTOS OF ANY DESCRIPTION TO A HOUSEHOLD WASTE RECYCLING CENTRE AS IT WILL NOT BE ACCEPTED. Asbestos is a Hazardous waste with health implications and requires specialist collection and disposal.
				The following general advice has been provided by the Environment Agency and should be borne in mind when carrying out any work involving asbestos cement:
				If the item is in good condition the best option may be to leave it.
				<ul> <li>Surfaces may be sealed by painting with an oil-based paint or dilute (1:10) UPV glue.</li> <li>Do not do anything that may break up the surface, e.g. do not scrape or brush off lichen or moss. Do not break up the panels. Wet the surfaces thoroughly and dismantle with</li> </ul>
				care.
Asbestos	Hazardous	n/a	n/a	Contact a licensed asbestos contractor to dismantle, remove and dispose of your asbestos (see Yellow Pages under Asbestos Removal). These companies are all privately operated
				and therefore will make a charge for waste received or collected. They are not obligated to accept waste taken to them so it is essential to contact the company in advance to confirm
				arrangements and costs. The following are licensed to accept asbestos from households or businesses, except where indicated:

Please speak to a recycling advisor at the site if you need help.  If the item is in good condition please speak to the Reuse shop on site. If they cannot be reused please speak to a recycling advisor.  If the item is in good condition please speak to a recycling advisor on site  Book a bulky collection (collection charge applies) by contacting Veolia on 0203 5676955. For further information about prices please see our bulky collections page. To book a bulky collection see www.southend.gov.uk/bulkywaste  Please contact a private recycling/waste contractor. Please see our commercial waste directory for further guidance at www.southend.gov.uk/commercialwastedirectory  Please speak to the reuse shop on site. If they cannot accept them consider donating to a charity shop  Plastic buttons can be recycled in the hard plastics container.  Calor gas cylinders are NOT waste but remain the property of the issuing company. Please return Calor gas cylinders to the address shown on the label. You can call 0800 662 663 for details of your nearest Calor Gas retailers, or go to the Calor Outlet Search facility at hwww.calor.co.uk/find-a-stockist/. If there is no ownership address on the cylinder, contact  Calor Gas for advice. Please do not take to the HWRCs as they cannot be accepted.  Whenever possible use material up in accordance with manufacturers instructions. If you cannot use up please EMPTY COMPLETELY: open valve to discharge gas somewhere outsid that is safe and away from naked flames. Once empty, these disposable cylinders can be placed in the black refuse sack. If the cylinder is leaking, leave it somewhere safe outside until it is completely empty.

1				On a campsite this will probably be marked as a Chemical Disposal Point or CDP. On some sites, it might appear as an Elsan Point. If you can't find an official emptying point, an option
				will be to flush the contents of your toilet down a normal WC, which may mean taking it back home. Alternatively you can contact a local waste disposal company who specilaise in
				this area of disposal. For more information on caravans please see our website.
