If you also contact us to provide other details or information, we may hold additional details such as email address, telephone number or other details, including sensitive personal information, that you may have disclosed to us.

Why do we need your personal information?

Our legal basis for processing your personal data is Public Task as the Traffic Management Act 2004 (Part 6) requires us to collect this in order to enforce Penalty Charge Notices.

How much information are we collecting about you?

We will only collect the personal information that we require in order to carry out the processing of Penalty Charge Notices and any other tasks related to this.

Who might we share your information with?

We appreciate that you may not wish the information we hold about you to be shared with others. However, sometimes it is necessary for us to do so.

We only share your information where we are permitted or required to by law, or where you have requested us to do so.

The personal information recorded will be used by the Council's parking and traffic enforcement teams and the contracted service providers who provide some parking services on our behalf. These services include:

- Parking enforcement contractors (e.g. civil enforcement officers, car pound operators)
- PCN and permit system suppliers
- ANPR & CCTV technology providers
- Cashless parking and payment providers

This information may also be shared with;

- Enforcement Agents in order to recover an outstanding debt
- Credit reference and fraud prevention agencies in order to help prevent and detect fraud or as part of our debt collection service
- External agencies like the police, fire service or other Councils
- Any person or organisation where we are required to because of a court order, legal duty or statutory obligation

Information may also be shared (within the Council?) to ensure that we are carrying out our duty to protect the public funds.

How long do we keep your personal information?

The personal information will be retained for 6 years following the completion of processing. It will then be disposed of in line with organisational processes and protocols.

Keeping your information secure

We make every effort to keep your information safe:

- We take appropriate care to secure the information we hold about you
- We have robust technical security such as passwords and information encryption
- We have policies and procedures to make sure your information is only available to our employees who need to see it to do their job, and we train these employees appropriately.
- We establish robust procedures and contracts to extend these protections to any other service provider/contractor/organisation we need to give your information to.

Transfer of information abroad

The majority of the personal information we store is held on systems in the UK. But there are some occasions where your information may leave the UK either in order to get to another organisation or if it is stored in a system outside of the EU.

We will have additional protections on your information if it leaves the UK ranging from secure ways of transferring information to ensuring we have a robust contract in place with that third party.

We will take all practical steps to make sure your personal information is not sent to a country that is not seen as 'safe' either by the UK or EU Governments.
