

Southend-on-Sea Council Tax 2019/2020

About this leaflet

This leaflet contains information on how the Council Tax for 2019/20 has been calculated, shows where the Council’s funding comes from and how it will be spent on Council services during the course of the year ahead.

The Council Tax for Southend-on-Sea has been increased by 4.49%, which includes 2.99% for general use and 1.5% for Adult Social Care. In addition, there are increases added from Essex Police, Essex Fire and Rescue Services and Leigh Town Council. Overall the Council Tax level still remains as one of the lowest in the country.

2019/20 marks yet another year where the Council has had to make difficult decisions as a result of the ongoing reduction in funding from Central Government. Government funding reductions are set to continue into the future and alongside increasing service demands particularly in adults and children’s spending the Council will need to identify further budget reductions totalling approximately £19m from 2020/21 to 2023/24 to balance its overall budget.

However, despite the on-going adverse economic and financial conditions, the Council has tried wherever possible to minimise the impact on front line services, whilst still maintaining the full range of services it currently provides.

We are continuing to make efficiency savings wherever we can. This year we have continued our approach to renegotiate existing contracts, rationalising our internal systems and staff structures, generating new income and working with our partners to deliver services jointly and more economically.

We are working to make lives better. Work on our shared ambition for ‘Southend 2050’ has helped us identify the type of Borough our residents and businesses want to see.

There will be more investment in things that are important to people now, including fixing more roads and pavements, investing in housing, community safety, school places and maintaining Southend Pier, our pride and joy.

We will create opportunity and prosperity through projects such as Airport Business Park Southend and Better Queensway. We are also ensuring people can stay safe and well throughout their lives by investing £5.7m into children’s and adult services, developing a new care

home, upgrading our CCTV system, and investing in sea defences.

Government statement concerning adult social care funding

'The Secretary of State for Communities and Local Government has made an offer to adult social care authorities. ("Adult social care authorities" are local authorities which have functions under Part 1 of the Care Act 2014, namely county councils in England, district councils for an area in England for which there is no county council, London borough councils, the Common Council of the City of London and the Council of the Isles of Scilly.)

The offer is the option of an adult social care authority being able to charge an additional "precept" on its council tax for financial years from the financial year beginning in 2016 without holding a referendum, to assist the authority in meeting expenditure on adult social care. Subject to the annual approval of the House of Commons, the Secretary of State intends to offer the option of charging this "precept" at an appropriate level in each financial year up to and including the financial year 2019-20.'

Calculation for the percentage increase for the 2019/2020 Council Tax

The Council has increased the Council Tax charge for 2019/20 by 4.49%.

This is an increase of 2.99% on the standard Council charge and a 1.5% increase on the Adult Social Care (ASC) Precept charge which is used to help fund the rising cost of social care services for older and disabled adults.

How we calculate the increases

The standard Council charge and the ASC Precept make up the ‘Total Council Charge.’ It is this overall charge that is used to work out both increases for 2019/20.

The Total Council Charge for 2018/19 was £1,322.82 for a Band D property (line 3 of page 8 table).

The £1,322.82 was made up of the standard Council charge for 2018/19 of £1,244.53 (line 1), plus an ASC Precept of £78.29 (line 2).

Standard council charge increase – 2.99%

Firstly, we multiply the Total Council Charge for 2018/19 by 2.99%.

£1,322.82 (line 3) X 2.99% = £39.56 (line 4)

We then add that increase to the 2018/19 standard Council charge.

£1,244.53 (line 1) + £39.56 (line 4) = £1,284.09 (line 5)

ASC Precept charge increase – 1.5%

Firstly, we multiply the Total Council Charge for 2018/19 by 1.5%

£1,322.82 (line 3) X 1.5% = £19.84 (line 6)

We then add that increase to the 2018/19 ASC Precept charge.

£78.29 (line 2) + £19.84 (line 6) = £98.13 (line 7)

Total Council charge for 2019/20

The Total Council charge for 2019/20 is the new standard Council charge (£1,284.09) plus the new ASC Precept charge (£98.13) which equals **£1,382.22** (line 8).

A full table of the calculated 2019/20 charges is shown on Page 8.

Discounts

The Council assumes that two adults live in a property unless we are advised otherwise. If only one adult lives in a property as their main home the Council Tax bill can be reduced by a quarter (25%). If a person's main home is occupied as a requirement of their job a 50% discount may be available on the second home.

Empty and Unfurnished Property Discount:

An unoccupied and substantially unfurnished property can be awarded a 100% discount for a maximum period of 1 month from the date it was last occupied, assuming it had been occupied for at least 6 weeks immediately before the empty and unfurnished period.

Second Homes:

A furnished but unoccupied property which is nobody's sole or main residence can be recorded for Council Tax purposes as a "Second Home". No discount is available but the property will not become subject to the additional 100% Long Term Empty Premium.

Long Term Empty Properties:

The owner of any property which has been empty and unfurnished for two years or more is subject to a 100% premium with effect from 1st April 2019, in addition to the usual full Council Tax charge for the property. Change of ownership or liability does not affect the premium charged on a property. In determining whether a dwelling is long term empty, no account shall be taken for any one or more periods less than 6 weeks during which the property is not empty.

Discounts on annexes:

If an annexe is used by an occupier of the main dwelling as part of their main residence, or is occupied by their relatives, a 50% discount can be applied after any existing discount they may be entitled to. A relative is a spouse, civil partner, blood relative or step child. Annexes occupied by dependent relatives may be exempt from Council Tax under Class W.

Property in need of or undergoing structural repair or alteration:

There is no longer a discount available on this basis. If the property is unoccupied and substantially unfurnished however, it may qualify for up to 1 month Empty and Unfurnished 100% Discount, as described above, and will thereafter be recorded as empty and unfurnished until the Council is advised otherwise.

Additional help

Second Adult Rebate

This is only available to Pensioners. This a reduction to your Council Tax charge based on the personal circumstances of a second adult (not a partner) in the property.

Council Tax Reduction

If you're on a low income, you may be entitled to some help towards paying your Council Tax. This is called Council Tax Reduction (CTR).

Council Tax Reduction is means tested. This means that your income will be assessed – this includes savings, pensions and your partner's income.

You can only claim CTR for the property you live in.

- » For Working Age people the CTR awarded is subject to a cap of 75% of your Council Tax charge; this is paid up to the Band D charge only. Also, you will not be eligible to claim if you have over £6,000 in savings and capital.
- » For pensioners, there is no cap to the potential award, though as a means tested benefit it will not always cover your full Council Tax charge. Also, you will not be eligible to claim if you have over £16,000 in savings and capital.

If you would like to know a more accurate forecast of your Council Tax Reduction entitlement please use the Council Tax Reductions calculator at www.southendcts.entitledto.co.uk

Appeals

The Council Tax banding of your home is decided by the Valuation Office Agency, and not the Council, and is based on what a property would have sold for on 1st April 1991. If you disagree with the Valuation Band your home has been allocated please visit the Valuation Office website www.voa.gov.uk in the first instance for further information and details of the limited circumstances that constitute a valid proposal to alter the Council Tax Valuation List.

Alternatively you may contact the Valuation Office by telephone on **03000 501501** or in writing to the Valuation Office Agency, Earle House, Colonial Street, Hull, HU2 8JN, or by email to cteast@voa.gsi.gov.uk

You can also make an appeal to the Council if you think that you are not liable to pay Council Tax, for example if you are not the resident or the owner, or because your property should be exempt, or if you believe that a mistake has been made in the calculation of your bill.

In these circumstances please write to the Council Tax section at Southend-on-Sea Borough Council, Civic Centre, Victoria Avenue, Southend-on-Sea, SS2 6ER or email ctax@southend.gov.uk with details of your appeal.

FLY TIPPING

We will take enforcement action against anybody found fly-tipping or littering. Fly tipping is a serious criminal offence and courts can impose imprisonment, fines up to **£50,000**, costs and orders to deprive rights to vehicles used during the offence. Veolia offers a chargeable bulky waste collection or free recycling and disposal for household waste at either of our Household Waste Recycling Centres (tips). Littering is usually smaller items for which a **£150** Fixed Penalty Notice can be issued. Leaving items on the public footpath (whether sacks on non-collection days or bulky items) could be classed as littering or fly-tipping. Please ensure items are kept on your own property and are accessible and visible on the inside edge of your property by 7am on your scheduled collection day.

Residents have a duty to dispose of their waste correctly. If you pass your waste to a disreputable waste removal business and it is found fly-tipped, you could still be held responsible for the crime.

WANTED FOR FLY TIPPING

If you find someone through social media, advert or leaflet, or you use a trades-person to carry out work at your home – ask for their waste carrier's licence. It is illegal for them to take your waste if they don't have one.

You can check if they are a registered waste carrier online at environment.data.gov.uk/public-register and selecting "Search waste carriers, brokers and dealers". If they don't have a licence, don't use them.

For advice please download the [Householders Duty of Care](#) Leaflet.

SEE IT... REPORT IT

Incidents can be reported on [MySouthend](#).

If you see fly-tipping and it is safe to do so, take photographs and keep a record of any vehicle number plates involved in the incident.

ESSEX POLICE AND ESSEX COUNTY FIRE & RESCUE SERVICE PRECEPTS 2019/2020

PFCC 
POLICE, FIRE AND CRIME
COMMISSIONER FOR ESSEX

Investing in more local, visible and accessible policing by: funding the recruitment of up to 215 additional officers, bringing police officer numbers to over 3,200 by March 2020.

Essex County
Fire & Rescue Service

Helping to keep you safe by investing in: sprinkler initiatives for vulnerable communities, improvements to operational training and the recruitment and retention of firefighters.

Hello,

At the end of last year we carried out a public survey and more than 71 per cent of you who responded said you would be prepared to invest more in policing to help improve the service provided. 73 per cent of these positive respondents said they would be prepared to pay at least £20 a year more and 48 per cent said at least £25 more. In the light of that and following detailed discussions with the Chief Constable, I am increasing the policing element of the Council Tax by £24 a year for the average household, the maximum permitted by government without a referendum. This will mean that the average Band D property will pay £192.96 for policing in a year, an increase of £2 per month. The current levy is £169.02 per year.

I also set the budget for the Essex County Fire and Rescue Service. Based on detailed discussions with the Chief Fire Officer/Chief Executive, I am going to increase the precept by roughly the rate of inflation or 2.94 per cent. This will be equivalent to an increase of £2.07 a year resulting in a rise from £70.38 to £72.45 for a Band D Council Tax property.

Our budgets this year contain an ambitious set of measures to improve policing across our county and get ahead of the increase in crime and disorder that we have seen; they will also underpin the effectiveness of our fire and rescue service. Any increase in tax has an impact and I do not take the decision to increase precepts for both police and fire and rescue services lightly. However, I have heard the feedback from the public about the improvements we need to make and this money will make a real difference.

The total budget for Essex Police is £300.5 million. £175.8 million is from central government taxes and £124.6 million is drawn from local taxation.

Essex County Fire and Rescue Service's total budget is £73.8 million with £46.9 million coming from Council Tax and £24.5 million from central government taxes with the balance being drawn from the service's more than adequate reserves.

Last year the increase in the policing element of the Council Tax led to 150 additional officers joining Essex Police. These officers have been recruited, trained and are arriving in your communities now.

People across the county have been telling me that they want more policing and that they are prepared to pay more to have it. This year's budget will enable the Chief Constable to recruit up to 215 additional police officers, bringing numbers to over 3,200 by March next year which will get Essex Police near where it needs to be to deal with the level of demand we are seeing.
